Therapists	One 30-minute Live Video Session per month for individuals age 13+, \$65 for additional visits
Psychiatrists	Up to 13 Live Video Sessions annually for individuals 18+
Unlimited Messaging Therapy	Free. Exchange unlimited messages (text, voice, photo, and video) with your personal therapist, age 13+

ACCESSING CARE

FIND A PARTICIPATING PROVIDER

This plan accesses a provider network for Practitioners/Doctors. To look up a provider go to [PHCS Network Website](#):

- 1 Click on "Change Network"
- 2 Click on "PHCS"
- 3 Click on "Practitioner & Ancillary"
- 4 Search for a provider

When selecting a provider, contact the provider's office to verify that they are still in-network with PHCS and that the provider's billing NPI# is contracted through the PHCS/Multiplan network.

For hospitals and facilities, this plan is on an open network. We work directly with facilities to negotiate pricing.

MOST SERVICES REQUIRE PRIOR AUTHORIZATION

Visits to your primary care provider or urgent care facilities do not require you to contact Care Coordination for prior authorization. If you visit an emergency room, you'll need to contact Care Coordination within 48 hours or as soon as reasonably possible.

For services outside of primary care, urgent care, or emergency room -- such as diagnostic testing ordered by your doctor, visits to a specialist, and outpatient procedures -- you MUST call Care Coordination BEFORE obtaining services.

Our team will assist in connecting you with Medwatch, our medical management team. See your plan documents for a complete list of services that require prior authorization.
